	German Art	3-8	\$120	Thurs	10	Frau Thompson

## **After School Activities Descriptions:**

**Art club** - Frau Thompson will be offering Art online for 3<sup>rd</sup> -8<sup>th</sup> grade students. Learn to use the language of art to create, design and explore while meeting online! You're that kid that makes funny faces out of the toppings on their pizza. You try your hand at sketching your favorite characters. Others see messy sand - you see castle potential. We'll come together in this online class to draw, paint and build. We'll learn how to brainstorm together and share our creations. Be inspired by a colorful variety of artists in art history who spoke German. You'll be able to show off your new creative skills and knowledge in more than just art! Materials not included - many projects can be made with normal household supplies. A supply list will be provided.

**Ballet** - Ms. Beatriz will be offering Ballet online for returning students. Ballet is the ultimate art that brings together athletic strength, flowing beauty, and inner expression. For your child, it is an excellent way to hone discipline, exercise the body, and move to music with tons of fun! This ballet class will focus on developing a variety of skills including creative expression, musicality and rhythm, muscle strength, flexibility, and coordination. With exercises and games set to instrumental and classical music, your child will be guided through various movements of the body, moving the head, arms, feet, and legs with elegance and energy.

**Choir Ensemble** - Herr Downie will be offering Choir online for 3<sup>rd</sup>-8<sup>th</sup> grade students. He will be using a combination of audio recordings through the Garage Band App, video recordings through the Acapella App, and weekly meetings to host Choir online. Students that are interested in joining Choir will need to meet the following requirements:

1. Two media devices: One to be able to play a digital recording that the student can listen to with headphones. The 2<sup>nd</sup> device will be used to record the student while playing their parts. For example: Music played from a phone with headphones. A computer making an audio recording such as a Mac with Garage Band.
2. Students will need to commit to a practice contract so that parts can be recorded and compiled.
3. Attendance at least one Zoom session a week. Depending on the need the Zoom session might be quite short. Zoom sessions might break into a small group for students to help each other or get assistance from an adult.

Note: If there are a parent's that are familiar with Final Cut Pro and Logic Pro, he could really use your assistance because those programs will allow for larger groups and have the capabilities to make recordings of much higher quality.

**German Art club** - Frau Thompson will be offering German Art online for 3<sup>rd</sup> -8<sup>th</sup> grade students. Hands-on learning takes on a whole new meaning with our online German immersion art club. I'm Frau Thompson, and am excited to be back with you creative Rilke students for this class. Practice vocabulary and understand more German in a natural, artistic way. We'll explore traditional European crafts and ways to add your own unique style. We will even brainstorm ways to add technology to projects. Learn to think like a designer and craftsperson, while improving your German the fun way! Materials are not included. Purchase items from the list to make the full project, or gather the alternative materials from your house to make the modified project.

**German Conversation** - German speaking instructors will facilitate German language enrichment through conversation with 3<sup>rd</sup> -8<sup>th</sup> grade students. This club is divided into a younger group (3<sup>rd</sup> -5<sup>th</sup> grade) and an older group (6<sup>th</sup> - 8<sup>th</sup> grade). The younger group will focus on novice level conversations in present tense and familiar vocabulary. The older group will focus on intermediate level conversations using a variety of tenses and extended vocabulary. Students will cover topics such as: All about me, Family, Daily Routine, School, Shopping, the Environment, Festivals and Celebrations.

**German Storytelling and Songs** - German speaking instructors will facilitate German language enrichment through storytelling and songs with 1<sup>st</sup> - 3<sup>rd</sup> grade students. Students will use German vocabulary to cover topics such as: numbers and counting, colors, shapes, the calendar, familiar things and places, family, and animals.

**German Tutoring** - German speaking instructors will help students with German homework and vocabulary by appointment. Appointments will be available in 30 minute (\$15) and 60 minute (\$30) increments on Monday and Friday from 3pm-4pm. Appointments are limited due to instructor availability. To make an appointment please email [rilkeclubs@rilkeschuleinc.org](mailto:rilkeclubs@rilkeschuleinc.org)

**Orff Ensemble** - Herr Downie will be offering ORFF online for 5<sup>th</sup>-8<sup>th</sup> grade students. He will be utilizing a combination of audio recordings through the Garage Band App, video recordings through the Acapella App, and weekly meetings to host ORFF online. Herr Downie will be checking out instruments to students so that they may practice at home and together online in small groups. Students that are interested in joining ORFF will need to meet the following requirements:

1. Conference with parents on checking out a school instrument.
2. Two media devices: One to be able to play a digital recording that the student can listen to with headphones. The 2<sup>nd</sup> device will be used to record the student while playing their parts. For example: Music played from a phone with headphones. A computer making an audio recording such as a Mac with Garage Band.
3. Students will need to commit to a practice contract so that parts can be recorded and compiled.
4. Attendance at least one Zoom session a week. Depending on the need the Zoom session might be quite short. Zoom sessions might break into a small group for students to help each other or get assistance from an adult.

Note: If there are a parent's that are familiar with Final Cut Pro and Logic Pro, he could really use your assistance because those programs will allow for larger groups and have the capabilities to make recordings of much higher quality.

**Yoga** - Frau Dietrich will be offering Yoga for K-8<sup>th</sup> grade students. The Science of Yoga helps with concentration and teaches a healthy respect for ourselves, others, and nature. Yoga can also help children learn techniques for relaxation, handling frustration, anger management, handling stress and managing anxiety. Physically, it helps with flexibility, strength, coordination and body awareness. Every Kidding Around Yoga with Dietrich class, even a virtual class, includes breathing, poses, and meditation techniques created for kids, including a mini "savasana" or guided meditation in an interactive, lively class.
